UHTDSB2000	1L Dispenser (no gel), Black	41.67 lbs	14.57" X 57.87" X 4,53" / 17.32" X 18.90" X 11.02"

100% handsfree, Touchless hand sanitizing dispenser stand is activated by foot with a Pedal. It is designed to offer a no-hand-touch hygiene station around your working area to help protect your staff and customers from the spread of infection.

The height of the dispenser can be adjusted from 38.19" up to max. 48.23". This allows the dispenser to be used in any public places such as preschools, nurseries or schools.

The advantage of a foot-operated Touchless Dispenser Stand, is that there is no need for access to water or paper towels for effective hand sanitation.
